From the Chairman's Desk

Mr Siddhartha Verma

It is my pleasure to address the students and staff of Maharaja Agrasen College through this annual report.

First of all, I extend my greetings to all the students and staff of Maharaja Agrasen College for being ranked amongst the best colleges in India by the National Institutional Ranking Framework of MHRD. As it enters its 25th year, the college is already recognized as a reputed college in the country. This could not have been possible without the hard work and commitment of the students and staff. The college is now well-positioned to take the next leap and be ranked among the first five colleges of the country. This is the mission of the Governing Body for the next twelve months. In this endeavor we seek the cooperation of all the students and staff of the college. The task is not easy, but half the battle is won when collectively we decide to take the first step in that direction.

The only way to reach that goal is when each one of us tries in our own way to do our best to help the college reach the highest level of institutional quality. I invite each student and staff member to come forward and put in their best efforts to take Maharaja Agrasen College to new heights in the coming year.

My best wishes to all.

From the Principal's Desk

Dr. Sunil Sondhi

Maharaja Agrasen College as a constituent college of the University of Delhi has seen significant changes in course structure and content in recent years. From Semester System to Four Year Undergraduate Programme to Choice Based Credit System, the teaching learning process has gone through rapid transition. These changes became necessary because of the impact of fast changing global economy and technology and the requirement of interdisciplinary and applied knowledge.

During the academic session 2017-18 Maharaja Agrasen College was able to keep pace with the changes in education policy and achieve good ranking in National Institutional Ranking Framework 2018 and India Today-AC Nielsen Survey 2017 which followed the 'A' grade awarded by the National Assessment and Accreditation Council in 2016.

During the current academic session all the 10 courses/departments in the college and more than 15 activity committees together organized over 100 seminars, conferences, workshops, invited lectures, and educational visits with the objective of letting the students go beyond class room learning and explore the wider horizons of practical knowledge. Apart from this thirty-four faculty members and eleven administrative staff members participated in training workshops and academic conferences in India and abroad. These activities helped hundreds of students to experience hands on learning in diverse fields.

The achievements of our students in academics, sports and extra-curricular activities are based on this ongoing stream of activities that kept the Maharaja Agrasen College campus bustling with creative activities throughout the year. I am confident that collaborative work of students, staff and Governing Body of the college will take the institution to greater heights of success in the coming months.
